Northern Ethiopia
Response

Partners
Presence

OVERVIEW

The expansion of the Northern Ethiopia crisis beyond Tigray into neighbouring Afar and Amhara regions has caused significant displacement and created a new wave of humanitarian needs. Now 26.3 million people are in need across Ethiopia. This includes 14 million children, 6 million women and 4.3 million people with disabilities. Of these, 4 million people are displaced, an increase in the number of IDPs by 1.3 million since April 2021.

To save lives, UNICEF is implementing a rapid response mechanism to expedite the delivery of life-saving supplies and support to hard-to-reach, vulnerable populations across all regions of the country. To address the expanding Northern Ethiopia crisis, UNICEF is widening its partnerships, rapidly dispatching emergency supplies to government and NGO partners, and pre-positioning supplies for immediate use as needed across all three regions affected by the conflict including ready-to-use therapeutic food and water, sanitation and hygiene non-food items, and through deployment of Mobile Health and Nutrition Teams.

UNICEF is appealing for US\$248.3 million to reach 6.9 million people and over 3.7 million children in Ethiopia with humanitarian assistance in 2021. This includes UNICEF's revised 2021 Northern Ethiopia Response Plan (Tigray, Afar and Amhara) scaling up targets and budgets - with a funding requirement of US\$108 million.

OVERVIEW

The Ethiopia country programme has four flagship programmes: end child marriage; end open defecation; stop stunting; and every child learning. The flagships were selected because they contribute to the progress and realization of a target set within the Sustainable Development Goals, and they address the critical needs and deprived rights of a large number of children.

Notably, 15 million children are married in Ethiopia, and 6 million of those married before the age of 15¹; Ethiopia has one of the lowest sanitation coverage rates in Africa, with 22 million people practicing open defecation; Ethiopia's under-nutrition rates are higher than the average rates estimated for Africa as a whole²; and about 2.6 million children aged 7-14 are out of school (54 per cent girls)³. The achievement of a flagship result will have a positive ripple effect on other associated key indicators for children which are fundamental to the Convention on the Rights of the Child, as well as UNICEF's mandate and Global Strategic Plan.

Stop Stunting

● Results ● Gaps

Indicators	Targets (%)	Results (%)	Gaps (%)
AMIYCN counselling satisfaction	45.0	90.7	0.0
Children fed min no. of food groups	18.0	14.0	4.0
DTP-containing vaccine	66.0	100.0	0.0
SAM treatment and default	1.5	3.4	0.0

Every Child Learning

● Results ● Gaps

Indicators	Targets (%)	Results (%)	Gaps (%)
Enrollment ratio	48.0	45.0	3.0
Out-of-school rate for primary school	18.0	16.0	2.0

End Open Defecation

● Results
● Gaps

Indicators	Targets (%)	Results (%)	Gaps (%)
Access to basic sanitation services	15.0	9.0	6.0
Open defecation	18.0	17.0	1.0
Primary education completion rate	67.0	71.0	0.0

Communities certified free of ODF

Institutions with basic WASH services

End Child Marriage

Access to health, social work ...

Skills development program...

Schools with Menstrual Hygiene Health Management

Indicators	Targets (%)	Results (%)	Gaps (%)
AMIYCN counselling satisfaction	45.0	90.7	0.0
